1. These rules may be called the Bengal Educational Service, Grade I, Recruitment Rules, 1934.

2. For the purposes of these rules—

(1) The Selection Board shall be as constituted by the Bengal Selection Board (Constitution and Functions) Rules.

(2) "Government" means the Local Government as defined in clause 4 of section 134 of the Government of India Act.

3. Recruitment to the Bengal Educational Service, Grade I, shall be by—

(a) promotion from other grades in the Education Department, or

(b) direct recruitment:

Provided that, if any particular post in the cadre of the service cannot suitably be filled by the above methods of recruitment, a person may be recruited, after consultation with the Selection Board, for a limited period on such terms as the Local Government thinks fit, one post in the service being held in abeyance during such period:

Provided also that the posts named in Schedule I shall be reserved for members of the Indian Educational Service so long as there are members of that service available and fit to occupy them.

4. (1) When a vacancy occurs in the service, Government shall, subject to the second proviso of rule 3, decide in which way recruitment shall take place.

SCHEDULE II.

Regulations as to the physical examination of candidates for direct recruitment to the Bengal Educational Services, Grade I.

General physical requirements.

I. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with the efficient performance of his duty.

II. In the examination of candidates the Medical Board will apply the following table of correlation of age, height and chest girth:—

Age.	Height without shoes.	Chest measurement on full expiration.	Chest measurement on full inspiration.
	Inches.	Inches.	
21 and upwards	62½ and under 65	30	32
	65 „ 68	31	33
	68 „ 70	32	34
	70 „ 72	33	35½
	72 and upwards	34	36½

III. *Measurement of chest.*—The candidate will be made to stand erect with his feet together and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape will be carefully gathered in during the process, and when the minimum measurement is reached it will be recorded. The candidate will then be directed to inflate his chest to its utmost capacity. The maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and maximum will then be recorded. In all doubtful cases the functional capacity of the lungs may be tested by means of the spirometer. The minimum vital capacity as tested by the spirometer shall in no case be below 180 cubic inches.

IV. The hearing must be good.

V. The speech must be without impediment.

VI. The teeth must be in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth, where necessary, for effective mastication.

VII. The chest must be well formed, the lungs and heart sound.

VIII. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other conditions likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation. Where any candidate has been rejected and has subsequently undergone one or other operation for hernia, hydrocele, varicocele or varicose veins, the Board may pass him, provided they are satisfied that the candidate has been radically cured.

IX. The limbs, feet and toes must be well formed and developed, with free and perfect motion of all the joints.

X. A candidate must have no congenital malformation or defect likely to interfere with his efficiency.

XI. A candidate must not be subject to chronic skin disease.

XII. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

Standard of minimum acuteness of vision required for appointment in the Provincial Services.

Better eye.	Worse eye.
Vision = $^6/_6$	Vision = $^6/_9$

after correction with glasses, provided there are no morbid changes present in the choroid or retinæ.

2. Cases of myopia may be admitted provided the ametropia in either eye or both eyes does not exceed—3·5 D and there are no morbid changes in the choroid or retinæ.

Cases of myopia with posterior staphyloma may, however, be admitted, provided ametropia in either eye does not exceed—2·5 D and no morbid changes are present in the choroid or retinæ.

3. Candidates with hypermetropia may be admitted, provided the acuteness of vision is—

Better eye.	Worse eye.
Vision = $^6/_6$	Vision = $^6/_9$

after correction with glasses.

4. In cases of defective vision due to nebula of the cornea, the candidate will be rejected.

5. Squints or any morbid conditions subject to risk of aggravation or recurrence in either eye may cause rejection of a candidate.

6. Colour vision need not be taken into account.

Form of medical certificate for candidates for direct recruitment to the Bengal Educational Service, Grade I.

The attention of the Medical Board is specially directed to the following:—

No person will be deemed qualified for admission to the service who shall not satisfy Government that he has no disease, constitutional affection or bodily infirmity, unfitting him, or likely to unfit him, for the service. It should be understood that the question of fitness involves the future as well as the present and that one of the main objects of medical examination is to secure continuous effective service, and in the case of candidates for permanent appointment to prevent early pension. It is at the same time to be noted that the question is one of the likelihood of continuous effective service, and that the rejection of a candidate need not be advised on account of the presence of a defect which in only a small proportion of cases is found to interfere with continuous effective service. Before filling up the form it should be ascertained from the candidate whether he has been previously pronounced unfit for Government service by any duly constituted medical authority in India or elsewhere.

"In the case of appeals from appellate decrees and orders (including remand orders under Order XLI, Rule 23, C. P. C.) in which the valuation of the appeal exceeds Rs. 50 and all appeals under Chapter X of the Bengal Tenancy Act."

(4) *For* the opening words in *italics* in clause D *substitute* the following :—

"In the case of appeals from appellate decrees and orders (including remand orders under Order XLI, Rule 23, C. P. C.) not exceeding Rs. 50 in value other than appeals under Chapter X of the Bengal Tenancy Act."

Instructions Relating to the Preparation of Paper-Books in First and Second Appeals under the New Scheme.

General.

1. The scheme took effect on the 13th November, 1933, and will continue in force for the period sanctioned for the further retention of the Paper Book Department on a temporary basis, subject to its ratification or modification in the light of experience gained as to its working during that period.

2. These instructions will apply—

(*a*) *in the case of first appeals from Decrees and Orders*—from the time when the translations of vernacular documents for inclusion in the paper-books are submitted for examination, on or after the 13th November, 1933; and

(*b*) *in the case of second appeals*—to all such appeals filed on and after the aforesaid date.

First Appeals.

3. (*i*) Paper-books in first appeals valued at Rs. 10,000 or more will be prepared entirely in the Court's office save only that the translation will be made by the appellant's advocate, the examination being done by the existing panel of examiners on the fee system.

(*ii*) Transcribing (including the examination of manuscripts) will be done by the Court's office.

(*iii*) Printing charges will be at the rate of Re. 1-3 per page.

(*iv*) The printing work will be done only by the presses approved by the Court, a list of which is appended.

4. (*i*) Paper-books in first appeals valued at less than Rs. 10,000 will be prepared entirely in the office of the appellant's advocate, only the examination of translations being done on the fee system by a new panel of examiners formed from the practising advocates of the Court (Appendix A). From this list the respondent will select an examiner for examining the translations made by the appellant's advocate, subject to the right of the Registrar to intervene, where necessary, *e.g.*, where the advocate selected has already too much work. For this purpose the name of the examiner selected by the respondent will be notified to the Court's office at once. If the respondent fails to do so or to enter appearance by the time the appellant submits his translations for examination, he shall lose his privilege to select the examiner, and in such cases the translations will be examined by the existing panel of examiners.

NOTE I.—In "above" cases, the advocate concerned will be free to select any press from the approved list of presses (Appendix B), but instances of indifferent work, delay, etc., in printing by any such press will be brought immediately to the notice of the Registrar, through the Assistant Registrar, by the office for such action as may be thought necessary.

NOTE II.—In "below" cases, the advocate concerned will be free to print his paper-book in any press he chooses, whether such press be on the approved list or not, but the advocate will be responsible to the Court that the paper-book has been prepared and printed with due care and diligence.

NOTE III.—Attention is invited to the proviso to rule 36, chapter IX (revised) of the Appellate Side Rules. The power given by that proviso will be more rigidly applied in future and bad work by any press will bring the advocate concerned within the mischief of that proviso.

NOTE IV.—With regard to presses, a register, with a page or more set apart for each press, will be maintained by the office. The name of the press selected will be obtained from the proofs submitted for examination. If it is seen that one press is getting more work than it can cope with and the work is suffering from imperfections or delay in consequence, the fact will be immediately brought to the notice of the Registrar through the Assistant Registrar.

NOTE V.—Similarly in the case of panel of examiners, a register will be kept by the office showing the work in hand of each examiner with a view to determining whether any one examiner is being over-worked and another under-worked. In a case like this, the fact will be brought immediately to the notice of the Registrar through the Assistant Registrar.

5. In all first appeals the entire estimates for the preparation of the paper-books will continue to be prepared in the office of the Court and served on the parties upon their filing their "Lists of Papers" as at present. The Court will collect the money due on such estimates from the parties, and from such collection will keep the undertaking advocates in funds necessary for the preparation of the paper-books. When the paper-books are finally prepared, the costs shall be taxed in the Court's office.

Second Appeals.

6. In the case of second appeals exceeding Rs. 50 in value, paper-books will be typed and not printed. Before preliminary hearing for admission of the appeal, that is, as soon as the appeal is registered and given a number, the appellant will be required to pay Rs. 10 only. On his doing so, six typed copies will be prepared in two impressions in the Court's office, of which two will be for the use of the Court, two for the appellant (to be used both at the preliminary as well as the final hearing), one for the respondent and one spare. After admission, as the respondents, or separate sets of respondents, enter appearance through different advocates, they will be charged at the rate of Rs. 5 for each copy. The appellant will have to supply a copy of the paper-book to the Deputy Registrar, if there is a minor whom the latter represents, out of the copies he has received, or by purchasing a copy for Rs. 5:

Provided that in any case in which an advocate desires to move the Court for an order for stay of execution in the lower Court under Order XLI, rule 5, Civil Procedure Code, *on the same day* that an appeal is filed, he must deposit with the Accountant of the Court Rs. 10 in cash with a *challan*, and the Accountant will grant him a receipt. When presenting such Memorandum of Appeal to the Stamp Reporter for his report the advocate will produce the above receipt obtained from the Accountant, and on being shown this receipt the Stamp Reporter will communicate to the Accountant, through the advocate, the file number of the appeal for insertion in the *challan*, provided the Memorandum can be accepted by the Stamp Reporter under the rules. If the appeal is admitted, the amount will subsequently be transferred to the account of the appeal in the Court's ledger under the number given to the appeal after registration. But in all such cases the advocate must provide, as heretofore, a copy of the Memorandum of Appeal (and annexures) for the use of the Second Judge.

If such appeal is dismissed under Order XLI, rule 11 of the Code, the sum of Rs. 10 deposited with the Accountant will be refunded on application; and if the appeal is admitted, the required number of paper-books will be prepared in the Court's office.

7. In the case of appeals from Appellate Decrees and appeals from Remand Orders under order XLI, rule 23, Civil Procedure Code, in which the valuation of the appeal exceeds Rs. 50 and appeals under chapter X of the Bengal Tenancy Act, the appellant shall, within 21 days from the date of registration of an appeal, deposit the sum of Rs. 10, and the respondent shall, at the time of entering appearance, deposit Rs. 5, in full payment of the cost of the preparation of a typed paper-book:

Provided that in an appeal from Appellate Decree in which there was an order of remand passed by the lower appellate Court, and in which the previous judgments (original and appellate) will have to be included in the paper-book, the charge for the paper-book to the appellant will be Rs. 12, instead of Rs. 10, and to the respondent Rs. 6, instead of Rs. 5 as in ordinary cases.

8. (*a*) In the case of batches of analogous appeals of the class mentioned in paragraph 7 above, the appellant shall, on the registration of an appeal, deposit, in full payment of the costs of the preparation of a typed paper-book, the sum of Rs. 10 for the first appeal, the charge for the analogous appeals being Re. 1-8 per appeal up to four such appeals, and annas 12 for every such appeal in excess of four, the additional charge not exceeding Rs. 10 in any case.

(*b*) In such cases, the respondent, on entering appearance, shall deposit Rs. 5 for the first appeal and half the charges prescribed for the appellant in respect of the analogous appeals, the additional charge not exceeding Rs. 5 in any case. The principle of this rule will apply to each set of respondents who enter appearance through separate advocates.

NOTE.—In cases in which some of the analogous appeals are above Rs. 50 in value and some below Rs. 50 in value, the principle of the above rule shall apply to the whole batch.

9. Where analogous appeals have been presented in separate batches, each batch of such appeals presented by the same appellant, or by the same advocate representing different appellants, shall be considered as a separate batch of analogous appeals and the costs of the preparation of the typed paper-book shall be deposited for each batch of such appeals separately calculated according to the provisions of rule 8. In the case of single appeals presented by different advocates or appellants in person such costs shall be deposited as provided in rule 7 for each such separate appeal, notwithstanding that such appeals may be analogous to others.

10. In the case of second appeals not exceeding Rs. 50 in value, and in second appeals from Orders (including Orders under section 47, Civil Procedure Code), irrespective of the value of such appeals, and in appeals from Remand Orders under order XLI, rule 23 of the same Code, in which the valuation of the appeal does not exceed Rs. 50, the existing system will continue and there will be no levying of compulsory charges on the litigants. After admission of the appeal, however, three copies of type-written paper-books will be prepared (instead of *two* as before) in the Court's office, of which two will be kept for the use of the Court, and one will be given to the Deputy Registrar, if there is a minor for whom he will have to appear. If not, it may be sold for Rs. 3, if the appellant or the respondent desires to purchase the same.

11. The typist will be paid at the flat rate of Rs. 2 for each set of three copies of every paper-book (in a second appeal irrespective of value) taken in one impression. In the case, however, of those appeals from Appellate Decrees referred to in the proviso to rule 7, the typist shall be paid Rs. 4, instead of Rs. 2, for each impression of three copies.

12. All typed paper-books in second appeals will, as soon as ready, be sent to the Bench Section for entry in the register of saleable paper-books and for safe custody and the manuscript copy will be sent to the section concerned to be kept with the record.

No. F. 10 (8)-R. I/34.—The following Resolution by the Secretary of State for India in Council is published for general information:—

In exercise of the powers conferred by subsection 2 of section 96B of the Government of India Act, the Secretary of State, with the concurrence of the majority of votes at a meeting of the Council of India held this 29th day of May 1934, hereby makes the following amendments in the Fundamental Rules, *viz.*:—

1. For clause (13) of rule 9 of the said Rules, the following shall be substituted, namely:—

9. (13) Lien means the title of a Government servant to hold substantively, either immediately or on the termination of a period or periods of absence, a permanent post, including a tenure post, to which he has been appointed substantively.

2. After rule 12 of the said Rules, the following shall be inserted, namely:—

12A. Unless in any case it be otherwise provided in these Rules, a Government servant on substantive appointment to any permanent post acquires a lien on that post and ceases to hold any lien previously acquired on any other post.

3. For rules 13, 14 and 15 of the said Rules, the following shall be substituted, namely:—

13. Unless his lien is suspended under rule 14 or transferred under Rule 14B, a Government servant holding substantively a permanent post retains a lien on that post—

(*a*) while performing the duties of that post;

(*b*) while on foreign service, or holding a temporary post, or officiating in another post;

(*c*) during joining time on transfer to another post; unless he is transferred substantively to a post on lower pay, in which case his lien is transferred to the new post from the date on which he is relieved of his duties in the old post;

(*d*) subject to the exception in rule 97, while on leave; and

(*e*) while under suspension.

Note.—In the case of a chaplain, the acceptance during leave of a benefice in the United Kingdom is not acceptance of foreign service for the purpose of clause (*b*) above.

14. (*a*) A Local Government shall suspend the lien of a Government servant on a permanent post which he holds substantively if he is appointed in a substantive capacity—

(1) to a tenure post, or

(2) to a permanent post outside the cadre on which he is borne, or

(3) provisionally, to a post on which another Government servant would hold a lien had his lien not been suspended under this rule.

(*b*) A Local Government may, at its option, suspend the lien of a Government servant on a permanent post which he holds substantively if he is deputed out of India or transferred to foreign service, or, in circumstances not

covered by clause (*a*) of this rule, is transferred, whether in a substantive or officiating capacity, to a post in another cadre, and if in any of these cases there is reason to believe that he will remain absent from the post on which he holds a lien for a period of not less than three years.

(*c*) Notwithstanding anything contained in clause (*a*) or (*b*) of this rule, a Government servant's lien on a tenure post may in no circumstances be suspended. If he is appointed substantively to another permanent post, his lien on the tenure post must be terminated.

(*d*) If a Government servant's lien on a post is suspended under clause (*a*) or (*b*) of this rule, the post may be filled substantively, and the Government servant appointed to hold it substantively shall acquire a lien on it; provided that the arrangements shall be reversed as soon as the suspended lien revives.

Note 1.—This clause applies if the post concerned is a post in a selection grade of a cadre.

Note 2.—When a post is filled substantively under this clause, the appointment will be termed a provisional appointment; the Government servant appointed will hold a provisional lien on the post; and that lien will be liable to suspension under clause (*a*) or (*b*) of this rule.

(*e*) Except as provided in sub-rule (3) of rule 97, a Government servant's lien which has been suspended under clause (*a*) of this rule shall revive as soon as he ceases to hold a lien on a post of the nature specified in sub-clause (1), (2) or (3) of that clause.

(*f*) A Government servant's lien which has been suspended under clause (*b*) of this rule shall revive as soon as he ceases to be on deputation out of India or on foreign service or to hold a post in another cadre, provided that a suspended lien shall not revive because the Government servant takes leave if there is reason to believe that he will, on return from leave, continue to be on deputation out of India or on foreign service or to hold a post in another cadre and the total period of absence on duty will not fall short of three years or that he will hold substantively a post of the nature specified in sub-clause (1), (2) or (3) of clause (*a*).

14A. (*a*) Except as provided in clause (*c*) of this rule and rule 97, a Government servant's lien on a post may in no circumstances be terminated, even with his consent, if the result will be to leave him without a lien or a suspended lien upon a permanent post.

(*b*) In a case covered by sub-clause (2) of clause (*a*) of rule 14, the suspended lien may not, except on the written request of the Government servant concerned, be terminated while the Government servant remains in Government service.

(*c*) Notwithstanding the provisions of rule 14 (*a*), the lien of a Government servant holding substantively a permanent post shall be terminated on his appointment substantively to any of the offices referred to in sub-rule (1) of rule 97 or to the post of Chief Engineer of the Public Works Department.

14B. Subject to the provisions of rule 15, a Local Government may transfer to another permanent post in the same cadre the lien of a Government servant who is not performing the duties of the post to which the lien relates, even if that lien has been suspended.

15. (*a*) A Local Government may transfer a Government servant from one post to another; provided that, except—

(1) on account of inefficiency or misbehaviour, or

(2) on his written request,

a Government servant shall not be transferred substantively to, or, except in a case covered by rule 49, appointed to officiate in, a post carrying less pay than the pay of the permanent post on which he holds a lien, or would hold a lien had his lien not been suspended under rule 14.

(*b*) Nothing contained in clause (*a*) of this rule or in clause (13) of rule 9 shall operate to prevent the retransfer of a Government servant to the post on which he would hold a lien, had it not been suspended in accordance with the provisions of clause (*a*) of rule 14.

4. In clause (*a*) of rule 22 of the said Rules, the words "under rule 13" shall be deleted and the following sub-clause to that clause shall be added, namely:—

(*iii*) When appointment to the new post is made on his own request under Rule 15 (*a*) and the maximum pay in the time-scale of that post is less than his substantive pay in respect of the old post, he will draw that maximum as initial pay.

5. For clause (*b*) of rule 26 of the said Rules the following shall be substituted, namely:—

Service in another post, whether in a substantive or officiating capacity, service on deputation and leave other than extraordinary leave count for increments in the time-scale applicable to the post on which the Government servant holds a lien, as well as in the time-scale applicable to the post or posts, if any, on which he would hold a lien had his lien not been suspended.

6. For sub-clause (*i*) of clause (*e*) of rule 26 of the said Rules the following shall be substituted, namely:—

The post in Government service on which the Government servant concerned holds a lien as well as the post or posts, if any, on which he would hold a lien had his lien not been suspended, and

7. In clauses (1) and (2) of rule 30 of the said Rules the words "under rule 13" shall be deleted.

8. In rule 31 of the said Rules, the words "under rule 13" shall be deleted and after the words "provided that" the following shall be inserted, namely:—

except in the case of a Government servant whose appointment to the post in which he is officiating was made on his own request under rule 15 (*a*).

9. For rule 59 of the said Rules the following shall be substituted, namely:—

Leave is earned by a Government servant under sections I to V of this chapter if he holds a lien on a permanent post in civil employ or would hold a lien on such a post had his lien not been suspended.

10. In rule 63 of the said Rules, for the words "retains a lien on his post in civil employ" the following shall be substituted, namely:—

holds a lien on his post in civil employ or would hold a lien on such a post had his lien not been suspended.

11. For sub-rule (2) of rule 97 of the said Rules the following shall be substituted, namely:—

(2) When a Government servant holding substantively any of the offices referred to in sub-rule (1) of this rule or the post of Chief Engineer of the Public Works Department takes leave immediately on vacating his office or post, or if an officer of the Indian Medical Service holding an administrative post is given leave under rule 86, he shall during the leave be left without a lien on any permanent post.

(3) If leave is taken immediately on vacating the post of Chief Commissioner, Chief Engineer of the Railway Department or posts held by officers in the Superior Revenue Establishment of State Railways corresponding in rank to a Chief Engineer, the suspended lien of the Government servant which would otherwise revive under rule 14 (*e*) may be terminated and the Government servant left during the leave without a lien on any permanent post.

12. For clause (*b*) of rule 111 of the said Rules the following shall be substituted, namely:—

The Government servant transferred holds, at the time of transfer, a post paid from general revenues, or holds a lien on a permanent post, or would hold a lien on such a post had his lien not been suspended.

13. In rule 124 of the said Rules after the word "lien" the words "or would hold a lien had his lien not been suspended" shall be inserted.

(*4*) Notwithstanding anything contained in rule 74 or in the Rules of Business adopted by any Board, if there are more candidates than vacancies the names only of the persons proposing and seconding and the number of persons voting for each candidate and the names of the candidates duly elected shall be entered in the proceedings."

DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE JUTE CROP OF BENGAL, 1934.

[NOTE.—On an average of the five years ending 1931-32, the area under jute in Bengal, to which this forecast relates, represents some 86·3 per cent. of the total area under jute in British India.]

The Preliminary Forecast deals only with the estimates of area sown and the condition of the crop at the time of publication of the forecast. The estimates of area are based on information received through the Collectors from the Revenue staff; also from the Panchayets and Agricultural Officers

Area sown in 1934.—In Bengal, returns for the present season shew a total area of 2,186,100 acres, an increase of about 17,400 acres or 0·8 per cent as compared with the figures for 1933 In districts where alternative crops could be grown, propaganda to restrict sowings has been effective. In some East Bengal districts a rise in prices at sowing time induced cultivators to increase the area under jute

Character of the season.—The weather was favourable for early sowings in certain low land tracts of East Bengal. Later on due to prolonged drought sowings were delayed. From early April seasonable showers fell in East and North Bengal facilitating operations Alternate rain and sunshine in May helped the growth and development generally. In West Bengal sowings commenced somewhat late owing to lack of rain Heavy rainfall in June caused water-logging of fields necessitating premature harvesting of low land crop in parts of East Bengal. Floods in Netrakona in Mymensingh district and Brahmanbaria in Tippera district have affected a limited area of the crop but details are not yet available.

Present state of the crop.—The present condition may be rated as satisfactory, on the whole.

Stock.—Stocks of fibre from last year's crop are reported to be small.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

PRELIMINARY FORECAST OF THE JUTE CROP OF BIHAR AND ORISSA, 1934.

[NOTE.- **On an average of the five years ending 1931-32, the area under jute in Bihar and Orissa, to which this Forecast relates, represents about 7·3 per cent. of the total area under jute in British India.**]

The present forecast deals only with the estimated area sown. It gives also a general survey of prospects, but makes no reference to the probable outturn either in percentage figures or in bales.

2. **Acreage.**—I estimate the area sown during the current and four preceding years in round numbers as follows:—

Years.	Acreage.
1930	238,000
1931	148,000
1932	170,000 (Revised).
1933	192,100
1934	163,800

3. **Weather conditions.**—In March light rain fell in Cuttack and in parts of all the jute-growing districts except Purnea where there was no rain. The fall was below normal everywhere. In April light rain fell in all the jute districts. The fall was below normal everywhere except Champaran. In May light rain fell in all the jute districts. The fall was below normal everywhere. In June rain fell in all the jute districts. The fall was light to moderate everywhere The weather conditions are reported to be favourable in the important district of Purnea and also in other districts except Champaran. Sowings are still going on in the Santal Parganas, Cuttack, Balasore and Bhagalpur.

4. **District returns.**—Last year's area under jute has been finally estimated at 192,100 acres. The total area under jute this year is estimated by District Officers in round number at 163,800 acres. The decrease in area is marked in Purnea and also in Muzaffarpur and Darbhanga and is due to slump in jute market in the preceding year in Purnea and to deposit of sand due to the earthquake in the remaining two districts.

5. **Condition and prospects.**—The condition of the crop is fair.

6. **General.**—The quantity of jute which remains in the jute districts from the crops of 1933 is reported to be small except in Bhagalpur where large stocks are reported to be still in hand.

The statement below compares the estimated area under jute in this province this year with the preliminary and final figures of last year:—

DEPARTMENT OF AGRICULTURE, ASSAM.

PRELIMINARY FORECAST OF THE JUTE CROP OF ASSAM, 1934.

[NOTE. **On the average of the five years ending 1931-32, the area under jute in Assam represents 5·3 per cent. of the total area under jute in British India.**]

1. **Season.**—The weather has not been generally favourable for the cultivation and growth of the crop due to excessive rainfall almost in all the jute-growing districts of the province except in Nowgong and Lakhimpur from which districts it is reported to be favourable. Some damage by hailstorms has been reported from Goalpara and Kamrup districts. The present condition of the crop is on the whole not quite satisfactory and the outturn is anticipated to be worse than that of last year.

2 **Area sown.**—The total area under jute as estimated by the Deputy Commissioners is 141,600 acres against 156,700 acres (revised) of last year. There is a decrease in area in all the districts and the net decrease over last year's final figure being 15,100 acres.

3. **Stock.**—According to the reports of the Deputy Commissioners very little jute remains in stock from last year's crop.

	Acres.	Acres.	Acres.	Acres.	Acres.			
Cachar (plain) ..	200	300	300	..	..	None ..	First part of April. Early.	Excessive rainfall since sowing time up till now has impeded the growth of the crop and hence the outturn is anticipated to be worse than last year.
Sylhet ..	15,000	14,000	9,400	..	5,200	Little ..	Middle of April. Normal.	The decrease in area is due to the low price of jute. The weather was generally favourable at sowing time but not quite so at present. The present prospects of the crop are satisfactory on the whole but the outturn is not likely to be better than last year. The recent heavy rains are believed to have caused considerable damage.
Goalpara ..	60,000	41,300	34,400	..	6,900	A small quantity remains owing to very low price.	First part of April. Normal.	Very low price of jute accounts for the decrease in area. The weather was not favourable for the growth of the crop due to incessant rains. Hailstorm also caused some damage. The outturn is expected to be worse than last year.
Kamrup ..	28,000	29,700	29,300	..	400	Little ..	Early April. Normal.	The weather is not favourable, on the whole, for the cultivation and growth of the crop. Rain and hailstorm caused some damage in places. The present condition of the crop is not quite satisfactory and hence a lower outturn than last year is anticipated.
Darrang ..	12,600	14,000	12,700	..	1,300	Little ..	Beginning of April. Normal.	Low price of jute is responsible for the decrease in area. The weather at sowing time was favourable but it has become unfavourable now owing to occasional heavy rains, which is also detrimental to the proper growth of the crop. The present prospects of the crop is not satisfactory and hence the outturn is expected to fall below normal.
Nowgong ..	50,000	51,800	50,700	..	1,100	Little ..	First week of March. Early.	The deficit rainfall in March is responsible for the decrease in area. The weather has been generally favourable for the cultivation and growth of the crop. The present condition of the crop is fair and the outturn is anticipated to be better than last year.
Sibsagar ..	400	300	300	..	..	None ..	Middle of April. Normal.	The weather has not been favourable for the cultivation and growth of the crop due to excessive rainfall. Flood also caused slight damage. The present condition of the crop is poor and the outturn is expected to be worse than last year.
Lakhimpur ..	1,000	500	400	..	100	None ..	First week of April. Normal.	The decrease in area is due to the low price of jute. The weather has been favourable for the crop and the outturn is expected to be the same as last year.
Garo Hills (plains)	5,000	4,200	4,100	..	100	None ..	Last part of March. Normal.	The weather is not generally favourable for the cultivation and growth of the crop. The present condition of the crop is not good and hence the outturn is expected to be worse than last year.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 4th July 1934.

Summary.—During the week the rainfall was generally light to moderate. Preparation of lands for winter rice and its sowing in seed-beds are proceeding. But more rain is needed to facilitate the operations especially in parts of North Bengal. Harvesting of autumn crops continues in places; weeding is nearly finished. Standing crops are generally in fair condition. The average price of common rice for the province has risen by about 0·48 per cent. as compared with that of the previous week.

All such candidates will have to obtain, in the first instance, sanction of this University to his migration. For that purpose the following procedure should be adopted:—

(1) Such a candidate must forward, along with his application, a declaration to the effect that he has resided in Bengal for at least one year previously and will not have read in any school (recognised or unrecognised) for one year previous to the date of the Matriculation Examination in which he intends to appear. The declaration should be countersigned by two Government officers of gazetted rank or by two teachers of an affiliated college.

Bengalee and Assamese candidates will be exempted from the fulfilment of the condition relating to residence provided they have not appeared at any Matriculation or High School Examination conducted outside the territorial jurisdiction of this University in which case the condition relating to residence will be strictly enforced.

(2) He should produce a migration certificate from the Divisional Inspector of Schools of his Province or a Transfer Certificate from the school in which he read last, countersigned by the Divisional Inspector of Schools, who will be deemed to be an officer appointed by the University for this purpose. If he did not read in any school, he should produce certificates of conduct and progress in studies from two teachers of an affiliated college or two Government officers of gazetted rank of the province from which he migrates.

(3) The application together with the prescribed migration fee of Rs. 10 should be submitted through the Head Master of the school in which the candidate read last or an Inspector of Schools of the province from which he migrates, who will forward his observations along with the application. In the case of a candidate coming from outside India, the application and fee should be submitted through the educational authorities of the district or province from which he migrates.

(4) Documentary evidence that he will complete the age of fifteen years on the first day of the month in which the examination takes place must be produced.

(5) Such application must reach the University on or before the 31st August of the year previous to that in which he intends to appear.

On his migration being sanctioned, the candidate will be required to pass a preliminary test examination to be held by a Government Inspector of Schools in Bengal or under his orders. The date, place and other particulars of such test examination should be ascertained from the Inspector of Schools concerned.

Such a candidate must appear in all the subjects prescribed under the Regulations. A candidate taking up Hygiene as one of his subjects should apply for special permission for the purpose, such application being supported by a certificate from a trained teacher in Hygiene, or a medical practitioner, to the effect that he is undergoing training in that subject under him.

Teachers of other provinces seeking permission to appear at the Matriculation Examination of this University as private candidates will have to appear at the examination in *all the subjects* prescribed under the Regulations and to pay the usual migration fee of Rs. 10. They are, however, exempted from appearing at and passing any test examination. Their applications should be submitted through the heads of institutions in which they are employed.

The above rules will be strictly enforced from the Matriculation Examination in 1936.

General Review.

Owing to the industrial depression and the general demand for economy some of the larger concerns which had been pressed to improve their steam raising equipment in order to lessen atmospheric pollution failed to improve their plant. Nevertheless, it is true, in the long run, that smoke abatement is a real economy. Engineers the world over are in agreement that smoke means waste. They know that fuel can be burned without air pollution. There are, however, tangible signs that, in the area under control, at least two of the larger installations which discharge excessive smoke daily, will be overhauled and reconstructed. Another large mill with a battery of 6 Lancashire boilers is about to change over to electric power—a permanent remedy—and work has already begun on the new installation.

General control by the Commission.

During the year under review the Commission held 12 meetings. The Commission also kept in touch with the Smoke Departments, Fuel, Engineering and Research Institutes of Europe and America. Much interest was aroused by a report of a new apparatus of the British Smoke Eliminator Company. The principle of the apparatus is to inject air preferably preheated over the fuel bed to cause the turbulence so necessary for perfect combustion. This prevents the formation of smoke without impairing the efficiency of the boiler. The introduction of this patent locally is awaited by the Commission with some interest.

The average emission of smoke from each factory chimney was the equivalent of ·08 minutes of dense black smoke per hour, the same as in the two preceding years. In 1906, when the work of the department commenced, it stood at 13·1 minutes per hour.

During the absence of the Chief Inspector, Mr. R. Grant, on leave, the First Assistant, Mr. Field, acted for him in addition to his own duties, for eight months.

Detecting offensive chimneys.

Smoke observations are made by the Inspectors from an Observatory centrally situated. The Observatory is fitted with a telephone so that the owner of an offensive chimney may be called up at the actual time of emission. In most cases the action thus taken is satisfactory. But when the nuisance is persistent an intimation is sent which is followed by an early visit to ascertain the cause and remedy the defects, if any. Observations of locomotives, steamers, launches and minor industries are made locally.

In 1926 the Commission recommended that Observers should be appointed to relieve the Inspectors for their legitimate duties of inspection, etc., of engineering plants. Financial stringency has, however, prevented the adoption of this scheme.

During the year, action was taken as under:—

Nuisances reported for departmental action	..	..	..	1,119 offences.
Telephonic warnings	..	..	..	1,434
Inspections and tests	..	..	..	4,130
Statutory warnings	..	..	..	7
Prosecutions	..	..	..	11

The maximum fine imposed for offences under the Act was Rs. 150 and the minimum Rs. 10.

Advantages of approved furnace plans.

It is imperative under all modern regulations for the abatement of smoke nuisance that before construction, or alteration of furnaces, etc., plans should be approved by the Smoke Department, the object being to secure that the design is such that, with reasonable care on the part of the operators, the smoke from the furnaces can be efficiently maintained within the prescribed limits. In the year under review, it is regretted that, out of 11 prosecutions, there were 9 cases of wrongful construction and use of plant. Smoke prevention should begin at the furnace end, and not at the chimney top. The Commission is advisory, and not repressive. If the public follow the advice given by the technical staff good results can be achieved without prosecutions.

During the year, the Commission examined and approved of 72 plans, of which 64 were prepared by the department and embraced all types of industrial furnaces. Permission to construct in each case was granted.

Domestic smoke.

Like other cities, Calcutta has its domestic smoke problem. There is no law for the control of domestic smoke.

Unlike European and American cities, the kitchen furnaces are not served by chimneys. In the cold weather months when there is little wind or rain, the smoke from these furnaces often remains stationary and will not rise for hours. The air becomes poisoned and at this time of year there is a rise in the ratio of deaths from respiratory diseases. For the last 3 years, the Commission, with the assistance of the Municipal Health Department and the various Ward Health Associations, have endeavoured to use persuasive and educational methods to minimise this source of evil but little headway has been made. The various Health Exhibitions held in the city are awakening some interest by the public in the clean air problem.

Complaints.

The Commission controls approximately 80 square miles. With an inadequate staff it is difficult to keep in touch with all cases of smoke nuisances. It has again been indebted to the public for bringing smoke nuisances to their notice by means of complaints. Eighty-three complaints were made against fifty-nine in the last year. Whenever a complaint is received a careful enquiry is made and relief is given, whenever possible. Many of the complaints were made against domestic smoke, in respect of which no action can be taken under the Act; but every effort is made by instruction and advice for the amelioration of these conditions.

Publicity.

The Commission was again represented at the Calcutta Health Welfare Week. The exhibits showed the effects of smoke nuisance and air pollution on the local respiratory mortality, the poisoning of food supplies and the effects on trees, buildings and distant localities. The Calcutta Electric Supply Corporation and the Oriental Gas Company greatly assisted this section in displaying smokeless gas and electrical appliances for cooking and other domestic purposes, as a permanent solution to the evils of smoke. The public showed great interest in this section.

Permanent remedies.

Electricity, gas, gas coke oil and smokeless fuels (low temperature carbonisation).

In the local factories apart from the 100 rice mills using the waste product, husk, much raw coal is used. That it is possible to reduce smoke production to a negligible degree is indicated by the yearly reduction shown in Appendix I. In many cases it will prove economical to use a smokeless medium in place of raw coal.

The Calcutta Electric Supply Corporation have greatly assisted the smoke abatement campaign by means of an intensive propaganda for the further use of electricity, both in the domestic and industrial fields.

As a result of their activities during the past year, the number of electric consumers has increased by 6,173, whilst an additional 683 heating and cooking circuits have been connected to the Company's mains.

The total number of motors connected during the past year was 973 representing 7,820 horse-power. It is of interest to note that a large number of complete works have been electrified which were previously using coal-fired boilers.

During the course of the year the Calcutta Electric Supply Corporation again reduced their rates for the supply of energy to large industrial consumers and it is hoped that this reduction will result in a number of large works being converted to electricity during 1934, and will encourage the starting up of new industries on electric power which might otherwise have been potential manufacturers of smoke.

The General Manager of the Oriental Gas Company writes:—

"During this Company's financial year to 30th June 1933, there was a satisfactory continual demand for gas appliances for domestic and industrial purposes, and the department concerned was kept reasonably busy on the installation of many varieties of gas-consuming apparatus in new, as well as re-constructed buildings. There is distinct evidence that property owners and occupiers are realizing more and more each year the benefits and advantages of the use of gas as a smoke eliminating fuel, and despite the continued prevalence of depressed business conditions, it is satisfactory to report an increase in gas-using appliances of 593 during the year under review comprising for Domestic purposes—cookers, grillers, hot plates, ring, burners, toasters, etc., and for Industrial purposes—steam-raising boilers, metal melting and hardening furnaces, drying ovens, tinman's stoves and soldering machine, etc."

Obituary.

The Commission records with deep regret the death on the 7th July 1933 of Mr. John Robson, late Chief Inspector and Secretary to the Commission. Mr. Robson joined the department on the 1st April 1906, and retired on the 31st December 1931.

In 1913, his services were lent to the Bombay Government for 6 months to initiate the work of smoke prevention in that province. His name will especially be remembered in the rice mill area of Tollygunge. Each mill is now working on the most scientific and economical lines. For this work in the rice mills he was awarded the Kaisar-i-Hind Medal by the Local Government. Government's tribute to his services is as under:—

"The late Mr. Robson was an enthusiastic officer and his untiring zeal and devotion to duty were the main factors in building up the department, to its present state of efficiency."

Conclusion.

The elimination of black smoke not only benefits the public generally but also by reducing the fuel bill puts money into the industrial owner's pocket. Every industry and every householder should do his share in eliminating air contamination.

The Commission records its grateful thanks to the Smoke Departments, Fuel and Engineering Research Institutions and the technical and local press for the assistance so freely rendered. Thanks are also due to local owners, managers and engineers, whose co-operation and valuable assistance have greatly helped the Commission in maintaining a high standard of freedom from smoke nuisances and to the technical staff for their energy and loyalty in carrying out the policy of the Commission.

President.

Chief Inspector and Secretary.

Resolution on the Report on the Police Administration in the town of Calcutta and its suburbs for the year 1933.

GOVERNMENT OF BENGAL.

Police Department.

CALCUTTA, THE 20TH JULY 1934.

RESOLUTION—No. 4027 PL.

Read—

The Report on the Police Administration in the town of Calcutta and its suburbs for the year 1933.

The Office of the Commissioner of Police was held throughout the year by Mr. L. H. Colson, C.I.E., I.P.

2. **Strength.**—The sanctioned strength of the Calcutta Police at the close of the year was 5,653, excluding a temporary force of 245. The strength of the force thus worked out at 183·5 men per square mile or 1 to every 211 inhabitants.

The number of constables enlisted during the year was 89 as against 257 in the previous year. Of these, 42 were Hindus and 47 Muhammadans. The improvement in the class of applicants which has been noticed of recent years continued.

3. **Health.**—The general health of the force showed an improvement during the year. The daily percentage of men absent from duty on account of sickness did indeed increase from 1·58 in the previous year to 1·84, but this was due to longer detention of certain classes of cases in order to effect a complete cure before discharge. It is expected that the steps taken to educate the force in hygiene by the distribution of leaflets and by the exhibition of a series of hygienic and educational films in the Calcutta Police Training School will ultimately prove useful in improving the general health of the force.

4. **Discipline.**—His Excellency in Council has noted with pleasure the appreciable decrease in the number of punishments inflicted on members of the force both judicially and departmentally as compared with the figures of the previous years.

5. **The Calcutta Police Ambulance Corps.**—The formation of this Corps, membership of which is voluntary, has provided opportunities to the members of the Calcutta Police, who as recruits have all received instruction in First Aid, to meet together and keep up their proficiency in ambulance work. It is gratifying to note that an improvement in First Aid work has resulted and has been favourably commented on by the hospital authorities, while the head of the St. John Ambulance Association in India has pronounced the Calcutta Police to possess the smartest and most efficient Ambulance Brigade units in India.

6. **Crime Statistics.**—There was an increase in the total number of cognizable cases reported to the police. But the increase, as in the previous year, related to offences other than offences under the Indian Penal Code, the number of cases under the Calcutta Hackney-Carriage Act and the Calcutta and Suburban Police Acts alone having risen by nearly 3,900 and 3,260, respectively. The number of dacoity, robbery, burglary and theft cases decreased, being 7, 19, 432 and 2,908, respectively, against 10, 24, 438 and 2,937 of the previous year. Of the cases reported to the Police, 99·08 per cent. were sent up for trial and 92·6 per cent. of the cases tried ended in conviction. The number of non-cognizable cases also showed an appreciable decline. The control of crime in Calcutta during the year, therefore, was satisfactory.

7. **Revolutionary crime.**—The year under review was one of notable success against terrorist organisations. The combined efforts of the Special Branch of the Calcutta Police and the Intelligence Branch of the Bengal Police, led to the unearthing of a terrorist conspiracy of far-reaching importance with branches in Bengal, Punjab, Madras, United Provinces, Bihar and Burma. The quantity of unlicensed fire-arms and explosives seized during the year, was unprecedented. To take a few instances only, in the course of one police search 78 packets of dynamite were found in possession of a young woman; and in another, 173 sticks of dynamite, 3 revolvers and 194 live cartridges. At a

third search, the police were conducted to a small arsenal in which were stored, among other offensive articles, no fewer than 7 revolvers, a large quantity of ammunition for revolvers, pistols and rifles, a bullet-moulding machine, parts of revolvers and pistols, 3 grenades, 2 bombs, a bomb making mould, a bundle of chemical formulæ, a packet of dynamite and lastly 3 blocks for forging hundred-rupee Government notes.

The prominent part taken by women in terrorist conspiracies was again illustrated by the seizure of a large quantity of dynamite from a woman as mentioned above and by the recovery of 2 revolvers and 2 automatic pistols and 53 rounds of ammunition from the custody of a girl student in a local college.

His Excellency in Council takes this opportunity of recording his appreciation of the loyalty, courage and devotion to duty displayed by all ranks of the force, particularly of the Special Branch in the drive against terrorism. Great credit is due to the officers and men who effected the capture of the 3 notorious terrorist leaders at Cornwallis Street on the 22nd May 1933 for the pluck and resourcefulness they displayed in the face of desperate armed resistance.

8. **Smuggling of arms.**—One of the main sources of supply of firearms of the terrorists in recent years has been the seamen smugglers working through the port of Calcutta. The Special detective staff of the Port Police, which had been sanctioned mainly for the purpose of suppressing this nefarious trade, was responsible for the recovery of 11 revolvers, 5 pistols and 332 cartridges during the year, and for the arrest of terrorists and revolutionaries attempting to procure unlicensed arms and ammunition. His Excellency in Council has noted with pleasure the conspicuous service rendered by this force, a service which is of vital importance in denying to the terrorist organisation the arms which, there is reason to believe, they are finding it more and more difficult to obtain.

9. **Traffic.**—There was an increase in receipts on account of registration of vehicles and licensing of drivers under the Motor Vehicles Act, the amount collected being Rs. 3,06,694 which is better by Rs. 36,205 than the figure of 1932, and Rs. 3,000 better than 1931, though still some Rs. 7,000 below the level of 1930. The improvement no doubt indicates an improvement in trade conditions. An increase in receipts from fees under the Calcutta Hackney-Carriage Act is attributed to the growing popularity of rickshaws as a means of conveyance.

The figures for street accidents, though sufficiently heavy, showed a reduction during the year. The number of killed and injured was 1,997 as against 2,039 in 1932 and 2,315 in 1931.

10. **Commendation of Officers.**—His Excellency in Council has read with pleasure the tributes paid by Mr. Colson to his Deputy Commissioners, Assistant Commissioners and other subordinate officers and records his appreciation of the valuable services rendered by all ranks of the force. Thanks are specially due to Mr. Colson for maintaining a high standard of discipline and efficiency.

Order.—Ordered that a copy of this resolution be forwarded to the Commissioner of Police, Calcutta, the Chief Presidency Magistrate, Calcutta, and the Commissioner of the Presidency Division, for information.

Ordered also that a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette*.

Read the Reports of the Sanitary Board and of the Chief Engineer, Public Health Department, for the years 1932 and 1933.

The water works at English Bazar, Narayanganj East Bank and North Chandpur were completed during the year 1932 and good progress was made with the other schemes under construction. The total capital expenditure on water works and sewerage works was Rs. 11,26,339 in 1932 and Rs. 6,13,721 in 1933 against Rs. 12,58,885 in 1931.

Sketch projects for schemes estimated at Rs. 8,03,750 were prepared in 1932 and for schemes to cost Rs. 25,78,699 in 1933: detailed projects amounting to Rs. 3,54,500 and Rs. 9,15,800, respectively, and detailed estimates and plans for miscellaneous works amounting to Rs. 2,43,730 and Rs. 1,95,897 were also prepared during the two years under review.

It is gratifying to find that, although the stoppage of Government grants naturally checked the undertaking of sanitary engineering schemes, several municipalities decided to finance their schemes by means of loans. This accounts for the large increase in the value of the projects prepared in 1933.

The interesting experiment, to which the report for 1933 refers and which was carried out on a small scale in the civil station and the University area at Dacca and in the adjoining localities, appears to have been very satisfactory and to have resulted in the destruction of the potential breeding grounds for mosquitoes.

As in previous years, the department was called upon to give its advice and assistance in many matters.

The Sanitary Board met twice in 1932 and six times in 1933. The Government of Bengal desire to take this opportunity of acknowledging their debt of gratitude to the members of the Board, whose advice has been of the greatest value to Government.

They also desire to express their appreciation of the ability with which Mr. F. C. Griffin continued to carry out the duties of Chief Engineer, and of the services of Mr. S. N. Ghose, who officiated in that capacity during Mr. Griffin's absence on leave from 20th May to 1st October 1932.

NOTIFICATION.

Simla, the 4th July, 1934.

No. F. 129-1/34-A.—Under Rule 18 of the Indian Legislative Rules, the Governor General has been pleased to order the publication in the Gazette of India of the following Bill, together with the Statement of Objects and Reasons relating thereto, and the Bill and Statement of Objects and Reasons are accordingly published for general information:—

L. A. BILL* No. 32 OF 1934.

A Bill to consolidate the law relating to customs duties.

WHEREAS it is expedient to consolidate the law relating to customs duties on goods imported into or exported from British India by sea and to customs duties on goods imported into or exported from British India by land; It is hereby enacted as follows:—

Short title and extent.

1. (*1*) This Act may be called the Indian Tariff Act, 1934.

(*2*) It extends to the whole of British India except the Chief Commissionership of Aden.

*The Governor General has been pleased to accord the sanction required by section 67 (*2*) of the Government of India Act.

Duties specified in Schedules to be levied.

2. (*1*) There shall be levied and collected in every port to which this Act applies, the duties specified in the First and Second Schedules.

(*2*) The Governor General in Council may, by notification in the Gazette of India, fix, for the purpose of levying the said duties, tariff values of any articles enumerated, either specifically or under general headings in the said Schedules as chargeble with duty *ad valorem* and may alter any tariff values for the time being in force.

(*3*) Different tariff values may be fixed for different classes or descriptions of the same article.

(*4*) Nothing in this Act shall authorise the levy of customs duties on any article carried from one customs port in British India to another such port except salt, opium and spirit.

Levy of duty where standard rate and preferential rate are specified

3. (*1*) Where in respect of any article a preferential rate of revenue duty is specified in the First Schedule if the article is the produce or manufacture of the United Kingdom or of a British Colony, the duty to be levied and collected shall be at the standard rate, unless the article is the produce or manufacture of the United Kingdom or of a British Colony and the article is determined, in accordance with rules made under sub-section (*2*), to be such produce or manufacture.

(*2*) The Governor General in Council may, by notification in the Gazette of India, make rules—

(*a*) for determining if any article is the produce or manufacture of the United Kingdom or a British Colony; and

(*b*) making provision in cases where at the time of importation proof is not forthcoming where required in accordance with the rules made under clause (*a*) that any article is the produce or manufacture of the United Kingdom or a British Colony—

(*i*) whereby duty may be levied at the standard rate and a refund given of the extra duty paid, if such proof is produced within a prescribed period, and

(*ii*) whereby duty may be accepted provisionally at the preferential rate on execution of a bond for the payment of the balance of duty if such proof is not produced within the prescribed period, and for the recovery of any balance due after the expiry of the prescribed period as if such balance were duty short levied within the meaning of section 39 of the Sea Customs Act, 1878. VIII of 1878.

(*3*) For the purposes of this section and of the First Schedule, the expression "United Kingdom" means the United Kingdom of Great Britain and Northern Ireland, and the expression "British Colony" includes a British Protectorate and any of the Mandated Territories of Tanganyika, the Cameroons under British Mandate and Togoland under British Mandate.

Power of Governor General in Council to alter protective duties.

4. (*1*) Where, in respect of any articles chargeable under the First Schedule with a duty characterised in the third column thereof as protective, the Governor General in Council is satisfied, after such inquiry as he thinks necessary, that such articles of British manufacture are being imported into British India at such a price as is likely to render ineffective the protection intended to be afforded by such duty to similar articles manufactured in India, he may, by notification in the Gazette of India, increase such duty to such extent as he thinks necessary.

(*2*) Where, in respect of any such articles, the Governor General in Council is satisfied, after such inquiry as he thinks necessary, that such articles not of British manufacture chargeable under the First Schedule with a higher duty than similar articles of British manufacture are being imported into British India from any place outside India at such a price as is likely to render ineffective or excessive the protection intended to be afforded by such duty to similar articles manufactured in India, he may, by notification in the Gazette of India, increase or reduce such duty to such extent as he thinks necessary either generally or in respect of such articles when imported from or manufactured in any country or countries specified in the notification:

Provided that the duty leviable on any such article shall in no case be less than the duty leviable on a like article of British manufacture.

(*3*) The Governor General in Council may, by notification in the Gazette of India, prescribed the conditions subject to which articles shall be deemed to be of British manufacture for the purposes of this section and of the First Schedule.

(*4*) This section shall have effect only up to the 31st day of October, 1934.

Duties on imports and exports by land.

5. Where a customs duty at any rate prescribed by or under this Act or any other law for the time being in force is leviable on any article when imported into, or on any article when exported from, a port in British India, the Governor General in Council may, by notification in the Gazette of India, direct that a duty of customs at the like rate shall be leviable on any such article when imported or exported, as the case may be, by land from or to any territory outside British India, which he may, by a like notification, declare to be foreign territory for the purposes of this section.

Duty on salt, opium and spirit, when protected by a certificate.

6. (*1*) Salt, opium and spirit imported from any port in British India and protected by the certificate of any officer empowered in that behalf by the Governor General in Council or the Local Government, are chargeable with only the amount, if any, by which the duty leviable thereon under the First Schedule exceeds the duty shown by such certificate to have been already paid in respect thereof.

(*2*) The amount, if any, paid to the Government as the price of such salt or opium is not duty within the meaning of this section.

(*3*) Nothing in this section applies to spirit which is exported under bond for excise duty from one customs-port to another customs-port under the provisions of Chapter XIV of the Sea Customs Act, 1878. VIII of 1878.

Application of certain provisions as to duties and goods.

7. So far as regards the presidency of Fort Saint George, the unrepealed provisions of the Madras Inland Customs Act, 1844, and so far as regards the Presidency of Bombay, the unrepealed provisions of the Bombay Land-customs Act, 1857, relating to the levy of duties and to dutiable goods shall, *mutatis mutandis*, apply to duties levied and goods liable to duty under or by virtue of section 5.

VI of 1844.

XXIX of 1857.

Additional import duty on bounty-fed articles.

8. (*1*) Where any country, dependency or colony pays or bestows, directly or indirectly, any bounty or grant upon the production therein or the exportation therefrom of any article and the article is chargeable with duty under the provisions of this Act, then, upon the importation of any such article into British India, whether the same is imported directly from the country of production or otherwise, and whether it is imported in the same condition as when exported from the country of production or has been changed in condition by manufacture or otherwise, the Governor General in Council may, by notification in the Gazette of India, impose an additional duty equal to the net amount of such bounty or grant, however the same be paid or bestowed.

(*2*) The net amount of any such bounty or grant as aforesaid shall be, from time to time, ascertained, determined and declared by the Governor General in Council, and the Governor General in Council may, by notification in the Gazette of India, make rules for the identification of such articles and for the assessment and collection of any additional duty imposed upon the importation thereof under sub-section (*1*).

Special import duty on sugar in certain cases.

9. (*1*) Where the rate of duty or other taxation imposed in any country, dependency or colony upon sugar not produced therein exceeds the rate of duty or other taxation imposed upon sugar produced therein by more than the equivalent of six francs per one hundred kilogrammes in the case of refined sugar or five francs and fifty centimes per one hundred kilogrammes in the case of other sugar, then, upon the importation of any sugar from such country, dependency or colony into British India, whether the same is imported directly from the country of production or otherwise, and whether it is imported in the same condition as when exported from the country of production or has been changed in condition by manufacture or otherwise, the Governor General in Council may, by notification in the Gazette of India, impose, in addition to any other duty or taxation imposed under this Act or any other law for the time being in force, a special duty not exceeding one moiety of such excess.

(*2*) The Governor General in Council may, from time to time, by general or special order, declare for the purposes of sub-section (*1*),—

(*a*) what articles or substances containing any saccharine matter shall be deemed to be "sugar" and what kinds of sugar shall be deemed to be "refined sugar" or "other sugar," respectively; and

(*b*) what sums in the currency of British India shall be deemed to be the equivalent of "francs" and "centimes," respectively.

(*3*) The amount of the excess referred to in sub-section (*1*) shall be from time to time ascertained, determined and declared by the Governor General in Council, and the Governor General in Council may, by notification in

the Gazette of India, make rules for the identification of sugar and for the assessment and collection of any special duty imposed upon the importation thereof under sub-section (*1*).

In contracts amount of increased or decreased duty to be added or deducted.

10. In the event of any duty of customs or excise on any article being imposed, increased, decreased or remitted after the making of any contract for the sale of such article without stipulation as to the payment of duty where duty was not chargeable at the time of the making of the contract, or for the sale of such article duty-paid where duty was chargeable at that time,—

(*a*) if such imposition or increase so takes effect that the duty or increased duty, as the case may be, or any part thereof, is paid, the seller may add so much to the contract price as will be equivalent to the amount paid in respect of such duty or increase of duty, and he shall be entitled to be paid and to sue for and recover such addition, and

(*b*) if such decrease or remission so takes effect that the decreased duty only or no duty, as the case may be, is paid, the purchaser may deduct so much from the contract price as will be equivalent to the decrease of duty or remitted duty, and he shall not be liable to pay, or be sued for, or in respect of, such deduction.

Duration of protective duties and power of Governor General in Council to modify or remit certain duties.

11. (*1*) When the duty specified for any article in the First Schedule is characterised as protective in the third column of that Schedule, that duty shall have effect only up to the date specified in the seventh column of that Schedule.

(*2*) If, after such inquiry as he thinks necessary, the Governor General in Council is of opinion that the duty specified in the First Schedule in respect of wheat has become unnecessary or excessive, he may, by notification in the Gazette of India, remit such duty or reduce it to such extent as he thinks fit.

(*3*) If, after such inquiry as he thinks necessary, the Governor General in Council is of opinion that the duty specified in the First Schedule in respect of wheat flour is excessive, he may, by notification in the Gazette of India, reduce such duty to such extent as he thinks fit, but not so as to make it lower than an *ad valorem* duty of twenty per cent.

Power to cancel notifications.

12. All notifications published under this Act may be cancelled by the authority publishing the same.

Repeals.

13. (*1*) The Acts mentioned in the Third Schedule are repealed to the extent specified therein.

(*2*) All notifications published and all rules and orders made, or deemed to have been made, under any of those Acts and in force immediately before the commencement of this Act shall, so far as they are consistent herewith, be deemed to have been, respectively, published and made under this Act, and all references made, or deemed to be made, to the Indian Tariff Act, 1894, in Acts or Regulations passed before the commencement of this Act shall be deemed to be made to this Act.
